EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Theodore Leitereg on May 10, 2004.

The application has been amended as follows:

- a.) In claim 19, line 4, after "reagent", inserted -- that is a conjugate --.
- b.) In claim 19, line 7, after "reagent", inserted -- that is a conjugate --.
- c.) In claim 27, line 4, after "reagent", inserted -- that is a conjugate --.
- d.) In claim 27, line 6, after "reagent", inserted -- that is a conjugate --.

2. The following is an examiner's statement of reasons for allowance:

The instant method defines over the prior art of record because the prior art fails to teach the step of contacting more than one set of the first and second reagents defined in parts (b) and (c) of claim 19 with a sample to detect one or more drugs in the sample. The closest prior art reference is the Oh et al patent (U.S. 5,851,778). However, Oh et al only teach contacting a sample with one set of first and second reagents to detect only one analyte in the sample. The instant kit also defines over the prior art of record because the prior art fails to teach a kit with more than one set of the

first and second reagents defined in parts (b) and (c) of claim 27 where each set of reagents is for detection of a different drug analyte.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
